

January 2024

We encourage you to refer to the questions below and choose 1 or 2 to guide your experience as you go through the exhibit, *The Land Carries our Ancestors: Contemporary Art by Native Americans*. We will use them to start our conversation on January 23<sup>rd</sup>. Please **make notes and photograph a piece of artwork** that stands out to you – we will encourage members to share their experiences to deepen our dialogue.

### Questions to consider as you browse the exhibit:

- Why did the artist choose this material?
- How is community visible in each artist's work?
- How did the artist determine the material that fits the message?  
What other material could be used to communicate their message?
- How do shared experiences build a shared community?
- What visual comes to mind for your concept of community?
